

BASIC BLOODSTAIN PATTERN ANALYSIS WORKSHOP

Hosted by the
**Great Falls Police
Department**
July 10-14, 2023

This 40-hour workshop meets or exceeds the requirements set forth by SWGSTAIN and the IAI for an introductory BPA course.

The instructors intend to introduce the students to BPA through approximately 50% lecture/discussion and 50% experiments involving the creation and analysis of bloodstain patterns.

COURSE TOPICS INCLUDE:

- Case examples of the various bloodstain pattern types
- Creating bloodstain patterns
- Learning from bloodstain pattern experiments
- Pattern recognition
- Terminology
- Documenting bloodstain patterns
- Reconstruction of events at the crime scene
- Limitations of BPA
- History of BPA
- The physical properties of blood
- Fluid dynamics
- Report Writing
- Testifying in court

INSTRUCTORS:

Michael J. Van Stratton, Laboratory Director, Kansas Bureau of Investigation. Mike has 30 years of experience in BPA and has taught basic and advanced bloodstain pattern workshops for more than 24 years in 20 states and Canada.

Kevin R. Winer, Chief Criminalist Supervisor, Kansas City Missouri Police Department Crime Laboratory. Kevin has 15 years experience as a bloodstain pattern analyst and has taught basic and advanced bloodstain workshops in 9 states. Kevin was currently selected to be the Chair of the BPA Research Task Force for the BPA sub-committee within the OSAC (the new SWGSTAIN).
